HH MSW EVALUATION VISIT

OBJECTIVES OF LEARNING

Your Company and Homecare Homebase are invested in your learning experience. Therefore, it is necessary we follow a set of strategies & tactics to achieve our objectives, which ultimately lead us to our overall goal through Empowering Exceptional Care.

1. **Mission / Goal:** Successfully facilitate the development and implementation of HCHB through the learning and growth of all end users
 - 1.1. **Objective:** User to understand HOW, WHEN, & WHY in using the system
 - 1.1.1. The HCHB new user should understand the basic functionality of the PointCare application upon completion of the Online Learning Hub curriculum.

HH MSW EVALUATION VISIT

- 1.1.2. The HCHB new user will understand how to properly begin their day and prepare before visits provided by the instructor by the end of this course.
- 1.1.3. The HCHB new user should understand how to properly develop a discipline-specific plan of care that drive future visits for the patient by the end of this course.

HH MSW EVALUATION VISIT

PATIENT CASE STUDY

ASSESSMENT AND PLAN OF CURRENT VISIT

Community: *Patient expresses feelings and thoughts about her current placement and the need for her to increase interaction in the community to help with cognitive decline.*

Cognition: *We will speak with the daughter via phone. Daughter states she would like continued education regarding dementia and assistance in making decisions on continued care whether the patient will remain in a facility or return home. Patient's daughter is proactive and eager to learn as much as possible to help her mother. Patient is alert, but tired. Patient is confused at times, but oriented to person, place and situation, but she is not oriented to time or date. Patient's confusion might be due to her not having her hearing aids in as well as some cognitive decline. We will continue to monitor patient's level of cognition and work on education and support with family and patient.*

Frequency: *1 visit per week for the first 30 days. Plan to discharge from discipline by day 30.*

- *Patient states she would prefer not to be seen on Wednesdays due to wound clinic visits*

DIAGNOSES

HISTORY OF PRESENT ILLNESS

Patient is a woman being admitted for home care due to St. II Pressure Ulcer to left heel and need for wound management. Patient has past medical history significant for type 2 diabetes, hypertension, and nicotine dependence. According to patient's husband, John Smith (contact), she has exhibited no cognitive issues or functional deficits prior to this episode of care. The patient has been noted to have a good appetite and denies problems with sleeping or weight changes. She also denies any suicidal ideations and visual/auditory issues.
